Water Vending Machine (Coin Operated)

A coin-operated water vending machine, often called a water ATM, that fills people's bottles with a set amount of purified water for each coin. The LCD screen shows the amount and status, and the machine runs unattended.

Payment	Display	Dispensing
Coin	**LCD**	**Set volume per coin**

Highlights

- Coin operated, with a set volume of water for each coin that you can change.
- LCD screen shows the amount dispensed and the machine's status.
- Self-service and unattended: a good way to sell clean water in public places.

Used in

- Bus stands and railway stations
- Markets and busy streets
- Villages and panchayats
- Colleges and hostels
- Hospitals
- Factories and labour colonies
