# Water Chiller, 2000 Litres (SS)

A 4-ton stainless steel water chiller for 2,000 litres of water. It keeps a steady supply of cold water for packaged water plants, canteens, dairies and factory processes.

| Cooling capacity | Storage | Material |
|---|---|---|
| **4 TR** | **2,000 L** | **Stainless steel** |

## Highlights

- 4 tons of refrigeration (about 14 kW) for 2,000 litres of water.
- Stainless steel tank and body: easy to clean, and does not rust in wet areas.
- Simple temperature controls, and it can be connected to your existing tank and pipelines.

## Used in

- Packaged drinking water plants
- Canteens and large kitchens
- Dairies and food processing
- Factories and process cooling
- Hospitals and institutions

## Specifications
