Industrial Water Chiller

A stainless steel water chiller for factories, labs and food units that need a steady supply of chilled water. It cools 2,000 litres, runs on a 220 V supply, and has a control panel for setting the exact temperature.

Cooling capacity	Power supply	Material
2,000 L	**220 V**	**Stainless steel**

Highlights

- Chills 2,000 litres of water and holds it at the temperature you set.
- Runs on a normal 220 V supply, so most sites need no new electrical work.
- Stainless steel construction for long life in wet and busy work areas.

Used in

- Factories and machine cooling
- Laboratories
- Food and beverage processing
- Bakeries and dairies
- Plastic moulding units

Specifications

Cooling capacity	**2,000 L**
Power supply	**220 V**
Material	**Stainless steel**
Controls	**Control panel with temperature setting**
Weight	**About 350 kg**
Installation and commissioning	**Available on request**

Figures are typical. Every plant is sized to your water and confirmed with the quote.
