Digital Water Flow Meter (SS, 4–6 inch)

Stainless steel positive displacement flow meters with a digital display, for 4–6 inch lines. They measure flow accurately even when it pulses or changes, which makes them a good fit for batching and plant monitoring.

Size	Material	Display
4–6 inch	**Stainless steel**	**Digital**

Highlights

- Positive displacement measurement: accurate and repeatable across the whole range.
- Handles up to 25 bar and is not thrown off by pulsating flow.
- Digital display shows the flow rate and the running total.

Used in

- RO and water treatment plants
- Batching and dosing systems
- Industrial process lines
- Borewell and pump outlets
- Water audits

Specifications

Size	**4–6 inch**
Material	**Stainless steel**
Display	**Digital**
Measuring principle	**Positive displacement**
Working pressure	**Up to 25 bar**
Signal output	**Pulse output on request**
Connection	**Flanged**

Figures are typical. Every plant is sized to your water and confirmed with the quote.
