Automatic Water Pouch Packing Machine

An automatic form-fill-seal machine that makes, fills and seals drinking water pouches from a roll of film. It packs 1,500–2,500 pouches an hour, in sizes from 200 to 500 ml.

Output	Pouch size	Operation
1,500–2,500 an hour	**200–500 ml**	**Automatic FFS**

Highlights

- Packs 1,500–2,500 pouches an hour, from 200 ml to 500 ml.
- Forms, fills, seals and cuts in one continuous run, with a digital pouch counter.
- Food-grade stainless steel contact parts and precise heat sealing for leak-proof pouches.

Used in

- Packaged drinking water units
- Pouch water businesses
- Event and catering supply
- Juice and buttermilk packing
